

## **NUCOR STEEL AUBURN, INC.**

### **ENVIRONMENTAL, SAFETY AND HEALTH POLICY**

Nucor Steel Auburn, Inc., is a recycler committed to conducting its operations in a manner that protects the environment, its employees and the public, and which complies with all applicable environmental, safety and health law and regulation. Our goal is to make all reasonable efforts to minimize our negative impact on the environment, prevent pollution, conserve natural resources and continually improve our environmental, health and safety performance. We believe that safety and environmental protection is everyone's responsibility, and that these goals are consistent with, and essential to, sound business practice.

In furtherance of this Policy, Nucor Steel Auburn, Inc. commits that:

- We will place paramount importance on the safety and health of our employees and the public and in protecting the environment, reducing waste, preventing pollution and conserving resources.
- We will faithfully comply with all applicable environmental, safety and health laws and regulations.
- We will strive to create safe working conditions to protect the safety and health of our employees and the public.
- We will consider and address the environmental, safety and health implications of all of our products, services and operations.
- We will continually strive to improve our environmental, safety and health performance and set objectives and targets for doing so.
- We will encourage all employees to work safely and participate in pollution prevention and waste minimization.
- We will maintain a cooperative and sensible relationship with regulatory agencies.
- We will work to improve the quality of the environment in the communities where we do business.
- We will publicly share environmental performance information when appropriate.

Nucor Steel Auburn's Policy is effectively communicated through the acronym **A – U – B – U – R – N**.

- A** – Always in compliance
- U** – Understand responsibility
- B** – Be environmental stewards
- U** – Uphold communication
- R** – Reduce pollution
- N** – Need to be continually improving
