

NUCOR STEEL- BERKELEY ENVIRONMENTAL POLICY

The Nucor Steel –Berkeley facility endorses the ‘GATOR’ principles to demonstrate our commitment to continual improvement of environmental performance. These principles are communicated to all persons working for or on behalf of Nucor and the public.

GOOD CORPORATE CITIZEN

Our objective as a good corporate citizen is to adhere to applicable legal and other requirements and to prevent or reduce adverse environmental impacts upon all media including air, land, surface water, and groundwater. Protecting the environment is the responsibility of management and all persons working for or on behalf of Nucor.

ASSESSMENTS

Environmental aspects will be assessed throughout the facility to identify opportunities for pollution prevention and resource conservation. These assessments will be used for continual improvement of the Environmental Management System.

TECHNOLOGY

To prevent, reduce or mitigate adverse environmental impacts, Nucor will continue to investigate new technologies and operational methods for significant operational changes.

OBJECTIVES AND TARGETS

The Environmental Management System will continually improve environmental performance through education and the development, monitoring, and measurement of objectives and targets.

RESOURCES

Nucor is dedicated to providing resources to establish and maintain an effective Environmental Management System.
