

ENVIRONMENTAL POLICY

Protecting the Environment

Vulcraft of New York is committed to protecting the environment, conserving natural resources, and ensuring the safety of employees, contractors, and the public through **continuous improvement** of environmental protection.

Comply with Regulations

To achieve these goals, we will promote and maintain environmentally responsible practices and environmental management programs that comply **with legal and other subscribed regulations**.

Control Pollution through Environmental Objectives and Targets

The environmental management system **will define and review environmental objectives and targets** for **prevention and reduction of pollution** in manufacturing, and related processes to safeguard adverse impact on the environment.

We will communicate to our employees, persons working on our behalf, and members of our community our “PC²” Policy.
