

8TH ANNUAL SCRAP DAY

Saturday, May 2, 2009 • 8:00 to Noon
Vulcraft Parking Lot – 1600 Omaha Ave.,
Norfolk. Across from Sunset Plaza

*To celebrate Earth Day,
Nucor wants you
to give us a present:*

Your junk.

*That old fridge, Washing machine.
Or any other scrap metal,
computer or electronics.
Bring it by, and we'll take it from there.*

NUCOR

It's Our Nature.[®]

Nebraska Department
of Environmental Quality

In celebration of Earth Day, Nucor and Alter Nebraska are sponsoring a household scrap metal & electronics recycling day. Households are invited to bring old appliances, computers, televisions and other scrap metal for recycling. This is a chance to properly dispose of those hard-to-handle appliances.

This event ensures that materials are recycled and handled in a manner friendly to our environment.

As the nation's largest recycler, Nucor converts almost 20 million tons of scrap into product every year. So, Earth Day is the perfect opportunity to get to know us and get rid of some junk in the process.

What:

- Scrap Metal
- Air conditioners
- Refrigerators
- Freezers
- Microwave ovens
- Computers, monitors, printers, stereos, televisions (two systems per household)
- Aluminum Cans (must be bagged)

^o We will pay for aluminum cans at 5 cents over market value

Once again: We will be collecting old computers & used electronics (two systems per household). No businesses please.

Exclusions: We will not accept - propane bottles, batteries, tires, oil filters, paint or aerosol cans or other materials containing free liquids.

We reserve the right to reject any unacceptable scrap or used electronics. Must be in line by noon.
